The best at home

Enjoying the outdoors throughout the year with indoor-style comfort: with our luxurious and aluminium terrace canopies. With an aluminium terrace canopy, you'll have a stylish extension of your house. In addition, aluminium is very solid, weather proof and requires little maintenance.

Why an aluminium canopy of Deponti;

- Deponti has a wide range of aluminium canopies.
- The flexible design of the Deponti range allows you to compose your canopy to your liking.
- The canopies of Deponti are made of high quality, low-maintenance and carefully selected materials.
- The extra (outdoor) space you get with a Deponti terrace canopy, allows you to create the perfect living situation.
- At Deponti, you'll get 5 years of warranty on all aluminium terrace canopies.

Why Deponti

Nebbiolo

Terrace canopy Nebbiolo; Slim, elegant and very competitively priced

The Nebbiolo is a canopy with a timeless and smooth design. In addition, the Nebbiolo has a heavier construction than customary within this affordable price class. The reason for this is that the beams are fitted with aluminium in stead of rubber top mouldings, making the canopy very sturdy. This makes the Deponti Nebbiolo excel in quality and price. In summary: The Nebbiolo has an elegant and smooth design and is an absolute powerhouse in its price class!

This canopy comes default in a width of 4, 5 or 6 meters and has a depth of 2.5, 3 of 3.5 meters. The Nebbiolo is available in the colours cream white and anthracite grey and comes with a polycarbonate roofing; a high-quality and sustainable material with a timeless look. This roofing is available in the versions opal, clear, ultra clear and solar control; a heat-resistant variant.

The best at home, because:
- Aluminium top mouldings
- Elegant and slim design
- Powerhouse in its price class

Sustainable | No discoloration | Weatherproof | Roofing polycarbonate | Max. width between 2 uprights

CREAM WHITE **RAL** 9001

ANTHRACITE **RAL** 7024

Terrace canopy Bosco; Our best-seller, choose your own look!

The Bosco terrace canopy has a perfect finish and offers a wide variety of choices in terms of the finish of the decorative gutter front and the look of the uprights. You can tune the Bosco entirely to your style, taste and preferences. This gives you the perfect match with your home and garden.

The Deponti Bosco comes standard with a width of 4, 5, 6 and 7 meters from once piece. The canopy is available as default with an associated depth of 2.5, 3, 3.5, and 4 meters. Of course, it is possible to customize dimensions. Because of our modular system, the possibilities with the Bosco are endless and suitable for every situation and every style.

The best at home, because:

- The best price-quality ratio in the market
- Optimal freedom of choice in the field of appearance and possibilities
- The canopy is interlinkable, meaning that the Bosco can be made as wide as you want

Giallo

Terrace canopy Giallo; Smooth, robust and characteristic

The Deponti Giallo terrace canopy is known for its smooth robust look and is equipped with an extra reinforced gutter profile. Because of this extra reinforcement, the Giallo can be mounted with just two uprights and a span of 6 meters. This maximum span on two uprights is what makes the Giallo unique. The result is maximum enjoyment, with a free and open view.

The Deponti Giallo is available in three RAL colours: cream white, traffic white and anthracite grey. The roofing comes standard in polycarbonate, in which you can choose from various types of polycarbonate, depending on your wishes.

The best at home, because:
- Canopy with smooth and robust design
- Reinforced gutter profile
- Six meter span on two uprights

ADVANTAGES OF ALUMINIUM

> In general, aluminium canopies are a more durable investment than canopies made of other materials.
> An aluminium terrace canopy offers a strong construction that will probably outlive us.
> Aluminium requires little maintenance.
> Aluminium canopies have a long lifespan, meaning that a single investment gives you many years of care-free enjoyment of outdoor life!

Pigato

Terrace canopy Pigato; Affordable luxury canopy with a glass roof

The Pigato is the luxury high-end aluminium terrace canopy of the product range. This canopy is reinforced with a steel strip in the gutter profile, meaning that this canopy can be fitted standard with a laminated glass roof. This will always give you the perfect lighting and you can even watch the trees, birds or stars from under your canopy. A sense of enrichment and pure luxury.

The Deponti Pigato is available in a width of of 4, 5, 6 and 7 meters from one piece. Just like other canopies, the Pigato can also be linked, meaning that you can make the canopy as wide as you want. Standard depths of the Pigato are 2.5, 3, 3.5 of 4 meters. This terrace canopy is available in the colours traffic white, cream white and anthracite grey. In addition, this canopy allows you to choose a decorative gutter front and uprights in a style that best suits your house.

The best at home, because:

- Luxury appearance thanks to a roof of safety glass
- Easily interlinkable, meaning that the Pigato can be widened to your liking
- An absolute enrichment in your backyard

Terrace canopy Ribolla; Enjoy a covered terrace everywhere

A terrace canopy allows you to take the indoors outdoor, resulting in a great place directly adjacent to your living room or kitchen. But did you know that you can also choose any other place in your garden? We are proud to present you our Ribolla.

The detached terrace canopy Ribolla is an entirely independent construction. Because of that, you are not bound by placement against a facade, resulting that you can enjoy a covered terrace in any place in your garden. The highest point of the Ribolla is at the front, placing the drain and the gutter are at the back of the roof, so that it maintains a smooth appearance.

The Ribolla comes standard with a closed back wall, one closed side wall or a side wall with an ultra clear polycarbonate window and one side wall with a platform. Of course, other combinations and variants are possible as well.

The best at home, because:
- Can be placed anywhere in your backyard
- Flexible configuration
- A lot of finishing options

Sustainable | No discoloration | Weatherproof | Roofing polycarbonate | Max. width between 2 uprights

Ribolla

Fiano conser-vatory

Turn your canopy into a conservatory; enjoy your garden and terrace longer, with glass sliding walls

On rainy and windy days, your living room may be more appealing than your covered terrace. However, with our glass sliding walls, you'll have a great time under your canopy, even on these days. With a glass sliding wall, you convert your canopy into a comfortable conservatory, allowing you to enjoy your canopy and garden to a maximum extent during all seasons.

However, our glass sliding walls are not only suitable for all terrace canopies, you can also use them as glazing on your balcony or in your garden house.

The glass panels are available in various height- and width dimensions, can run in three to six rail tracks and have no frame, due to this they offer an unobstructed view of your backyard. This allows you to enjoy that ultimate outdoor feeling, even in lesser great weather conditions.

DETAILS

Colours (profiles)	Traffic white texture (RAL9016) / Cream white (RAL9001) / Anthracite texture (RAL7024)
Panel width* (mm)	640/820/980
Glass thickness (mm)	10
Number of tracks	3/4/5/6-track rails
Installation height* (mm)	2000/2100/2200/2300/2400/2500

**Deviating dimensions are also available on request.*

Optionally, the glass sliding walls of Deponti can be expanded with various glass wall accessories of Deponti, such as handles and carriers. > See page 20.

Accessories

With our accessories, you can make your terrace canopy suitable for every moment, season or weathertype.

Side wall

Comfortable, windproof and available in both polycarbonate and glass

You can make the extra living space created under your terrace canopy even more comfortable and homely by choosing side walls. A side wall allows you to close the canopy at one or both sides, free from wind and rain. This allows you to enjoy your canopies longer.

Our side walls come standard with 16 mm thick polycarbonate and an aluminium frame that matches the colour of your cream white or anthracite canopy. The Deponti side walls can be installed under any brand and type of terrace canopy.

DETAILS

Colours (frame)	Cream white (RAL9001) / Anthracite structure (RAL7024)
Colours (sheets)	Polycarbonate (Opal / Clear / Ultra clear / Solar control)
Standard height (mm)	3000
Standard dimensions	Terrace canopy with depth up to 4 metres

If you prefer a glass side wall, we also offer a frame construction system for a side wall with 33.1 glass.

Side panel

Covers the sloped part between the roof and the top of the side wall.

A side panel is used to partially close your terrace canopy on one or multiple sides for instance when it is next to a fence or wall. A side panel is designed to cover the sloped part between the roof and the top of the side wall.

The side panel is made of an aluminium frame and 16mm thick polycarbonate. For the frame, you can choose from the RAL colours cream white, traffic white and anthracite grey, depending on the colour of your canopy. If desired, the side panel can also be delivered in glass.

You can easily add the side panel to your order, but you can also mount it later. The side pannel can be mounted to all types of terrace canopies we have.

DETAILS

Colours (frame)	Traffic white texture (RAL9016) /cream white (RAL9001) / Anthracite texture (RAL7024)
Colours (sheets)	Polycarbonate (Opal / Clear / Ultra clear / Solar control)
Standard height (mm)	1000
Standard dimensions	Terrace canopy with depth up to 4 metres

Grillo Fence parts

Extra shielding and privacy

If you want to enjoy extra shielding and privacy in your garden, the Grillo fence parts are the perfect solution. The Grillo fence parts are perfect for closing or partially closing one or both sides of your canopy. The Grillo fence parts are also perfect for building a durable fence in your garden.

Because the fence parts are stackable and can be fitted with click profiles, they give you the flexibility of creating a solution that fits your situation. You can also create a side panel with Grillo parts, for instance for your canopy.

DETAILS

Colours (frame)	Anthracite texture (RAL7024)
Dimensions fence part	
Width (mm)	25
Height (mm)	166
Working height (mm)	150
Lengths (mm)	3500/4000/5000/6000

LED lighting

Stay outside even longer

Want to have dinner with family or friends, read a book on the lounge sofa or play a game with the entire family? With ambient outdoor lighting, you can also enjoy your terrace at night. Our dimmable LED recessed spotlights come with remote control; extra comfort!

DETAILS

Number of lights	6 or 10 or a multitude of that
Dimmable	Yes (continuous)
Operation	Remote control is included by default
Dimmer power	18W
Voltage	18-23V (750mA)
Minimum dimmer load	4 x 3W

Accessories

With our accessories, you can make your terrace canopy suitable for every moment, season or weathertype.

Concrete footings

Supporting foundation.

A Deponti terrace canopy can be installed on any existing surface. For extra firmness or when a solid foundation is not available, you can also choose concrete footings; These concrete footings can easily be installed under the uprights, out of sight, and can be supplied with and without rainwater drain. No surface is the same, so seek advice of one of our Deponti dealers about the best foundation in your garden situation.

Heater

Enjoying your terrace canopy in the spring and fall as well.

Choose the extra comfort of a heater. This allows you to also enjoy your terrace canopy in the spring and fall as well and stay outside extra long. Our ‘Quartz heater’ has a maximum capacity of 1500W and has three settings. Quartz Heater is similar to central heating. This makes the Quartz Heater perfect underneath a terrace canopy. In addition, the heater has an overheating protection.

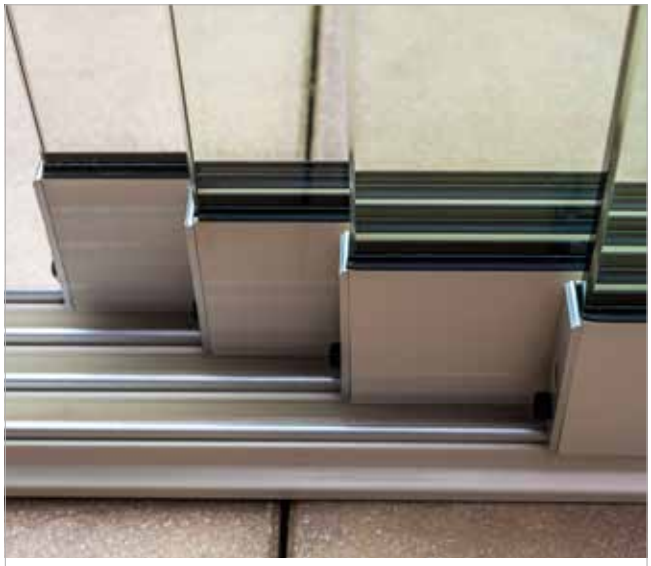

This beautiful heater gives you a subtle heat sources that suits the design of your terrace canopy!

Glass sliding wall door handles

To be opened easier, without stains or fingerprints on the window

Have you expanded your canopy with glass sliding walls? If so, you can opt for extra handles to open the sliding walls even easier, without stains or fingerprints. These door handles can be attached easily to the glass panel at a place of your liking. In this, you can choose between adhesive handles and screw-on handles.

Glass sliding wall carrier system

All glass panels open and close at once.

‘Carriers’ make sure that all panels are moved automatically, when opening or closing the glass wall. This way, you can easily open or close the entire wall. The carriers can be mounted in the profile in a flexible way, meaning that you decide where the panels overlap.
